

A top conveyor belt manufacturer

Improving the performance of travelling technicians

The leader on the domestic market for the design, manufacture and maintenance of complete conveyor systems, decided to supply its technicians with a digital solution in order to increase their productivity in the field. This company decided Econocom was the right partner to assist the firm with its digital transformation and step up its productivity and agility.

- An end-to-end mobile solution for **the firm's travelling technicians**:
 - Tablets with the new **business application**, SwingMobility.
 - **360° incident cover** to ensure permanent availability of equipment (next-day, on-site replacement).
 - **Accessories suited** to the needs of technicians in the field.
- **Single governance** and **monthly subscription** including **iPad as a service**, **apps** and **project management**.
